### Bio:

Linus Maina Mwangi has a Master of Science in Forestry degree from the University of Toronto, Canada, and a Bachelor of Science from the University of Nairobi. He has conducted research in various areas of forestry and allied natural resources. He has almost 40 years of experience in research. He has conducted several research projects in KEFRI. He has also managed to conduct research with international institutions mainly on Armillaria root disease and mycorrhiza symbiosis. As a Principal Research Scientist, he has been based in the Central Highlands Eco-Regional Research Centre (CHERP) in Muguga. As the head of the integrated pest management section, has spearheaded the provision of advisory services to stakeholders. He was the Executive Secretary to the Tree Pest Management Network for Eastern, Central, and Southern Africa from 1996 to 2004. Currently, he has been an executive committee member of The Forest Invasive Species Network for Africa (FISNA) since 2004. In CHERP he has been the Chairman of the editorial committee. He has also been a member of the National Colloquium Organizing Committee.
